

First Best Practice

1) Title of The Practice – Social Action For Environment Protection and Conservation

2) Objectives of the Practice

a) To Collaborate with the Eco-Pro Organization (NGO) for Social Action

b) To create awareness among students and masses

3) The Context -Chandrapur District rich in forest and natural resources has resulted in heavy industrialization. This heavy industrialization has caused degradation of forest and natural resources, and hence pollution of the city and district has been utmost worst. Chandrapur, the district place is one of the most polluted cities in India. For this reason non governmental organization initiated action, which in due course of time became a Social Action for college students and school going students seeking for Environment Protection and Conservation. Our college has signed MOU with Eco-Pro. This is the same NGO which received a shot in the arm after Prime Minister Narendra Modi appreciated the forest cleaning project taken up by them in one of his Mann ki Baat program. In the session 2021-2022, as per the decision of the IQAC our college administration thought of linking our students with Eco-Pro for their work of Environment Protection and Conservation, Preserving Heritage, Restricting Man- Animal Conflict and celebrating important national and International Days. Apart from Regular field work(Thursday & Friday) two groups (20 students) joined the various movement of Eco-Pro on Sunday willingly. These students also motivated other students and masses.

4) The Evidence of Success –The Eco-Pro organization provided guidance ,skills and training for various actions to the students , Although speaking pragmatically it is not possible to control pollution but still due to various actions and movement of Eco-pro and students, the people of Chandrapur are getting aware of Environment Protection and Conservation.

5) Problems encountered and resources required - It was very difficult to motivate masses for participation in this movement. Resources required were provided by Eco-Pro organization itself .

Second Best Practice

1) Title of The Practice – Birthday Gift to Library

2) Objectives of the Practice

- a) To strengthen the College Library
- b) to avail students various books on competitive exams.

3) The Context –In an informal meeting of staff it was discussed that apart from books and literature related with curriculum and references the students may be provided with books on general knowledge and competitive examination, so that students prepare themselves for competitive examination in our college library. On the occasion of birthday of each faculty all the faculty members contribute and purchase books and literature on general knowledge and competitive examination and gift them to college library on behalf of Birthday faculty.

4) The Evidence of Success –Students often visits library and get access to the books on competitive examination; the record is available with the library.

5) Problems encounter and resources required -- the library needs more fund to purchase books. Need of resource persons are necessary but there is a scarcity of expertise in this regard.
