Program on Man Animal Conflict**

Chandrapur District is known as one of the biggest and most dense Tadoba Andhari Tiger reserves. 51 people have died in the year 2022 and they were attacked by Tigers and leopards. since the numbers of Tigers have increased drastically, there seems to be a direct man- animal conflict not only in adjacent villages but also in cities.

since the man-animal conflict is quite rampant in this tadoba tiger reserved forest, people are protesting against the invasion of Tigers and leopards in surrounding villages and urban area.

Considering this burning issue, college decided to create awareness among the masses. The college has set up an MOU with NGO ECO PRO CHANDRAPUR which is endlessly working for maintaining the ecosystem in this volatile atmosphere. In this regard various awareness programs organized in villages and urban areas of Chandrapur Taluka.
